

PRADYUM MESHAM

+91 8482932838 | pradyumofc13@gmail.com | linkedin.com/in/pradyum-meshram | github.com/Pradyum-02

Professional Summary

Computer Engineering student focused on **Full Stack Development and AI applications**, with hands-on experience building REST APIs, authentication systems, real-time applications, and AI-powered platforms. Skilled in **JavaScript, TypeScript, React.js, Node.js, Express.js, MongoDB, MySQL, Redis, and Docker**. Seeking opportunities in Software Development, Full Stack Development, or AI Engineering.

Education

Modern Education Society's Wadia College of Engineering
Bachelor of Engineering in Computer Engineering

Pune, Maharashtra
Expected Graduation: June 2027

Experience

Alpha Innovations
Web Development Intern

May 2026 – July 2026
3 Months

- Developed and maintained **responsive web pages** using HTML, CSS, and JavaScript while following modern web development practices.
- Collaborated with team members to implement **website features, UI improvements, and functional enhancements** based on project requirements.
- Performed **testing, debugging, and optimization** to identify issues and improve application reliability and user experience.

Projects

CollegeOS – AI-Powered Campus Management Platform | React, Node.js, Express, MongoDB, Gemini API, RAG, JWT [Live ↗](#) 

- Engineered an **AI-powered campus management platform** with role-based access control and academic management modules using React, Node.js, Express, and MongoDB.
- Integrated **LLM + RAG** capabilities to provide contextual academic assistance and developed REST APIs for communication between application modules.

ChatFlow – Real-Time Collaboration Platform | React, Node.js, Express, MongoDB

 Code

- Developed a full-stack collaboration platform featuring **secure authentication and real-time messaging** with React and Node.js.
- Designed responsive React interfaces and implemented **REST APIs with MongoDB integration** for persistent user and application data.

Secure URL Shortener | Node.js, Express.js, MongoDB, REST APIs

[Live ↗](#)

 Code

- Engineered REST APIs for **URL creation, shortening, and redirection** using Node.js, Express.js, and MongoDB.
- Implemented a client-server deployment architecture with the **backend deployed on Render and frontend on Vercel**.

Authentication API – Secure Auth Service | Node.js, Express.js, MongoDB, JWT

 Code

- Built a reusable authentication service using **JWT, bcrypt, protected routes, and role-based access control**.
- Implemented **secure login, refresh tokens, authorization middleware, and RESTful APIs** for authentication and user-management workflows.

Technical Skills

Languages: JavaScript, TypeScript, SQL, HTML5, CSS3

Frontend: React.js, HTML, CSS, Responsive Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: MongoDB, MySQL, Redis

AI: AI Application Development, AI Agents, LLM Integration, RAG, Gemini API

DevOps & Tools: Docker, Git, GitHub, VS Code, Postman, MongoDB Compass, Vercel, Render
